

Great rooflines, charming brick and stone veneers and a covered entryway give this home great curb appeal. Situated beyond the barrel vaulted foyer ceiling, the Great Room takes center stage, with a fireplace flanked by built-in bookshelves and dramatic arch head windows that overlook the rear yard. A vaulted and beamed ceiling completes this elegant and refined living space.

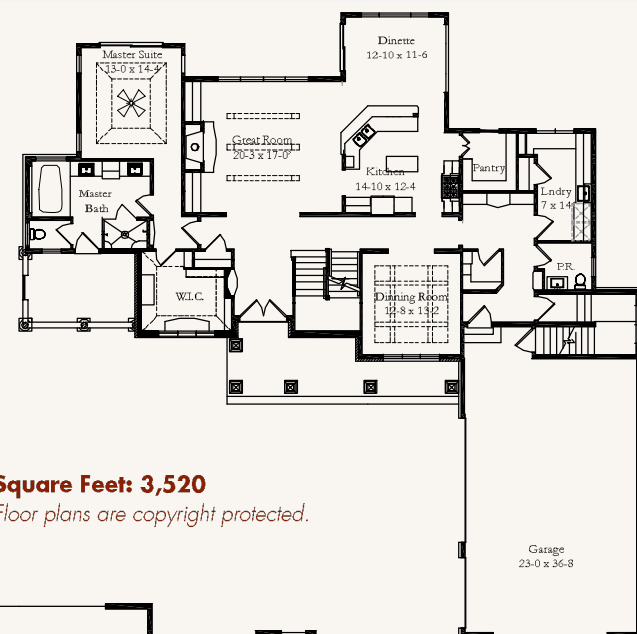

For the homeowners who love to entertain, the formal dining room is adjacent to the gourmet kitchen which includes cook top, built-in oven, center island, and a large walk-in pantry. The kitchen also features a snack bar and very spacious dinette, great for those not so formal gatherings.

The master suite is located on the main floor for convenience and privacy. The suite includes an extravagant walk-in closet. The barrel vaulted master bath features a large tiled shower enclosure, luxurious soaking tub, dual basins and a very special private court yard.

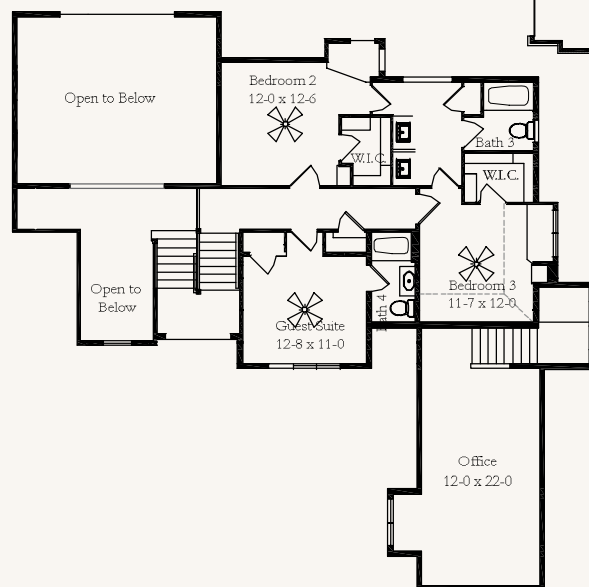

A bonus room above the three car garage is accessed by its own stairway off the mudroom. It's great for a game room or home office.

The second floor has two generous bedrooms, both with walk-in closets and a shared bath. Also featured on the second floor is a guest suite with its own private bath for your overnight company's comfort.

Character prevails in this elegant home. The Hallmark II is an example of Meridian's commitment to design excellence.

The Best Room Contest: The Master Suite

This master suite says, "Slow down and relax." A rich earth tone palette enhances its soothing effect and contributes to the owner's quality of life. Bathing is part of the social sphere of the suite, yet the bath offers spa-like solitude.

The walk-in closet is more than a place to put things; it is in effect a dressing room replete with vaulted ceiling and custom storage shelving. A private courtyard off the bath provides that special place to enjoy a cup of coffee or other fun libations! Be prepared to dream.

mheislen@wi.rr.com

I started Heislen Designs with the intention of bringing something unique to the building industry in Southeastern Wisconsin. I have always had a passion for design with attention to detail. Over the past 15 years I have made many families feel special in a home I created just for them. I have the ability to design many styles of homes. You can trust that a home I design for you will increase in value as a result of great design and fabulous detail.

Collaborating with Meridian Homes, Inc. and Christy Golden in the planning of this year's Parade of Homes model was both challenging and rewarding. I hope you truly enjoy this special home.

Meridian Homes, Inc.

Christy Golden, Interior Designer

I firmly believe that whatever space I am designing, whether it is a kitchen, a bathroom, a bedroom or a lounge, the rules remain the same. Listen to the customer, and then design. My aim is to understand the client's personality and incorporate this into the home. I specialize in innovative window treatment design, from conception to fabrication as well as installation.
